

## **Denis José Mendoza Vidal.**

**Based out of:** Barranquilla Atlántico, Colombia,

**Cell:** (+57)3044612480.

**Email:** [Denismendozavidal@gmail.com](mailto:Denismendozavidal@gmail.com).

**Github repository:** <https://github.com/denisjosemendozavidal>.

**Portfolio:** <https://portfolio-denis-mendoza.netlify.app/>

### **Hi, I'm Denis a React.js Front-end Web Developer:**

- I have hands-on experience with **HTML, CSS, Javascript (Vanilla) and React.JS**. With a solid understanding of Next.js. For further information on this, please check:
  - My portfolio at <https://portfolio-denis-mendoza.netlify.app> or my github repository at <https://github.com/denisjosemendozavidal>
- **Tech Skills:** Proficient in Git, GitHub, and web development using CSS, HTML, JavaScript, and React.js, I excel in RESTful API integration, scalable coding, and have a good grasp of Next.js, ensuring dynamic, responsive, and future-ready web applications.
- **Soft skills:** As an effective communicator and resilient professional, I adapt quickly to new challenges, stay self-motivated, and am committed to excellence. Skilled in quick learning and problem-solving, I excel in handling complex issues and mastering new skills efficiently.
- **Other Skills:** As a strong leader with big picture awareness, I guide teams to success, ensuring seamless workflow transitions. A collaborative team player, I align my contributions with others for cohesive results, always focusing on the successful completion of projects.
- Previous work experience:
  - Company: Webrun Labs
  - Role: Project Manager / Full Stack Next.js Developer
  - Duties: At WebRun, a Webflow development agency, I serve multiple roles, including Project Manager, Product Owner, and Tech Lead. My daily tasks revolve around driving the development of stunning, high-converting websites and landing pages. This process begins with a thorough understanding of our clients' industries, ambitions, and brand identities. Acting like a conductor, I transform these insights into vibrant, actionable plans for our design team. Our goal is to not just understand but also to vividly realize each project's vision. My expertise encompasses overseeing seamless design integration in Webflow and occasionally employing my skills in Next.js. Leveraging a comprehensive toolkit, I specialize in crafting digital experiences that captivate and convert, transforming our clients' visions into impressive digital landmarks

**My “why”:** I love programming because it gives me the opportunity to build something that could help a lot of people. Also because it is a constant and really challenging learning opportunity that I’m sure will keep me engaged and motivated for a very, very long time.
