

Denis José Mendoza Vidal.

Carrera 1C 2 #41C59, Barrio Bellarena, Barranquilla Atlantico,
Colombia, Cell: (+57)3044612480. **Email:** Denismendozavidal@gmail.com. Github
repository: <https://github.com/denisjosemendozavidal>. Portfolio:
<https://portfolio.denismendoza.site/> or <https://portfolio-denis-mendoza.netlify.app/>

Hi, I'm Denis a fully bilingual, (English/Spanish), **Front-end Developer:**

- I have hands-on experience with: **HTML, CSS, Javascript (Vanilla) and React.JS**. With basic knowledge of React Native, Node.js, PostgreSQL and Python
 - For further information on this, please check my portfolio at <https://portfolio.denismendoza.site/> (or <https://portfolio-denis-mendoza.netlify.app/>) or my github repository (<https://github.com/denisjosemendozavidal>)
- Soft skills: **Adaptability, leadership, strong analytical skills, coachable, great communicator, goal oriented, fast learner, able to take ownership and full accountability over projects and able to provide results with little to no supervision.**
- I have a background in:
 - Problem solving roles that require time sensitive and goal oriented decision making abilities.
 - Helping to keep high levels of motivation and engagement from myself, my teammates and subordinates
- Previous work experience:
 - +10 years in sales, mostly B2B.
 - Out of those, close to 5 in the US logistics industry, to be more specific within sales departments of Freight Brokerages focused on Full truck loads. Companies I worked for were: Loadsmart Inc, Link: <https://loadsmart.com/> and Go To Truckers Inc, link: <https://gototruckers.com/>
 - Mayor accomplishments:
 - Increasing monthly OKR accomplishment by an average of 20% across the board.
 - Creating a new sub-department almost from scratch (1 team member) to a fully functional and profitable unit (20 team members with their own leader)

My “why”: I love programming because it gives me the opportunity to build something that could help a lot of people. Also because it is a constant and really challenging learning opportunity that I'm sure will keep me engaged and motivated for a very, very long time.

Education.

- **Career:** Full stack web development and computer science.
Degree: Full stack web developer.
Institution: Academlo, School of technology and computer science.
